

General Notes

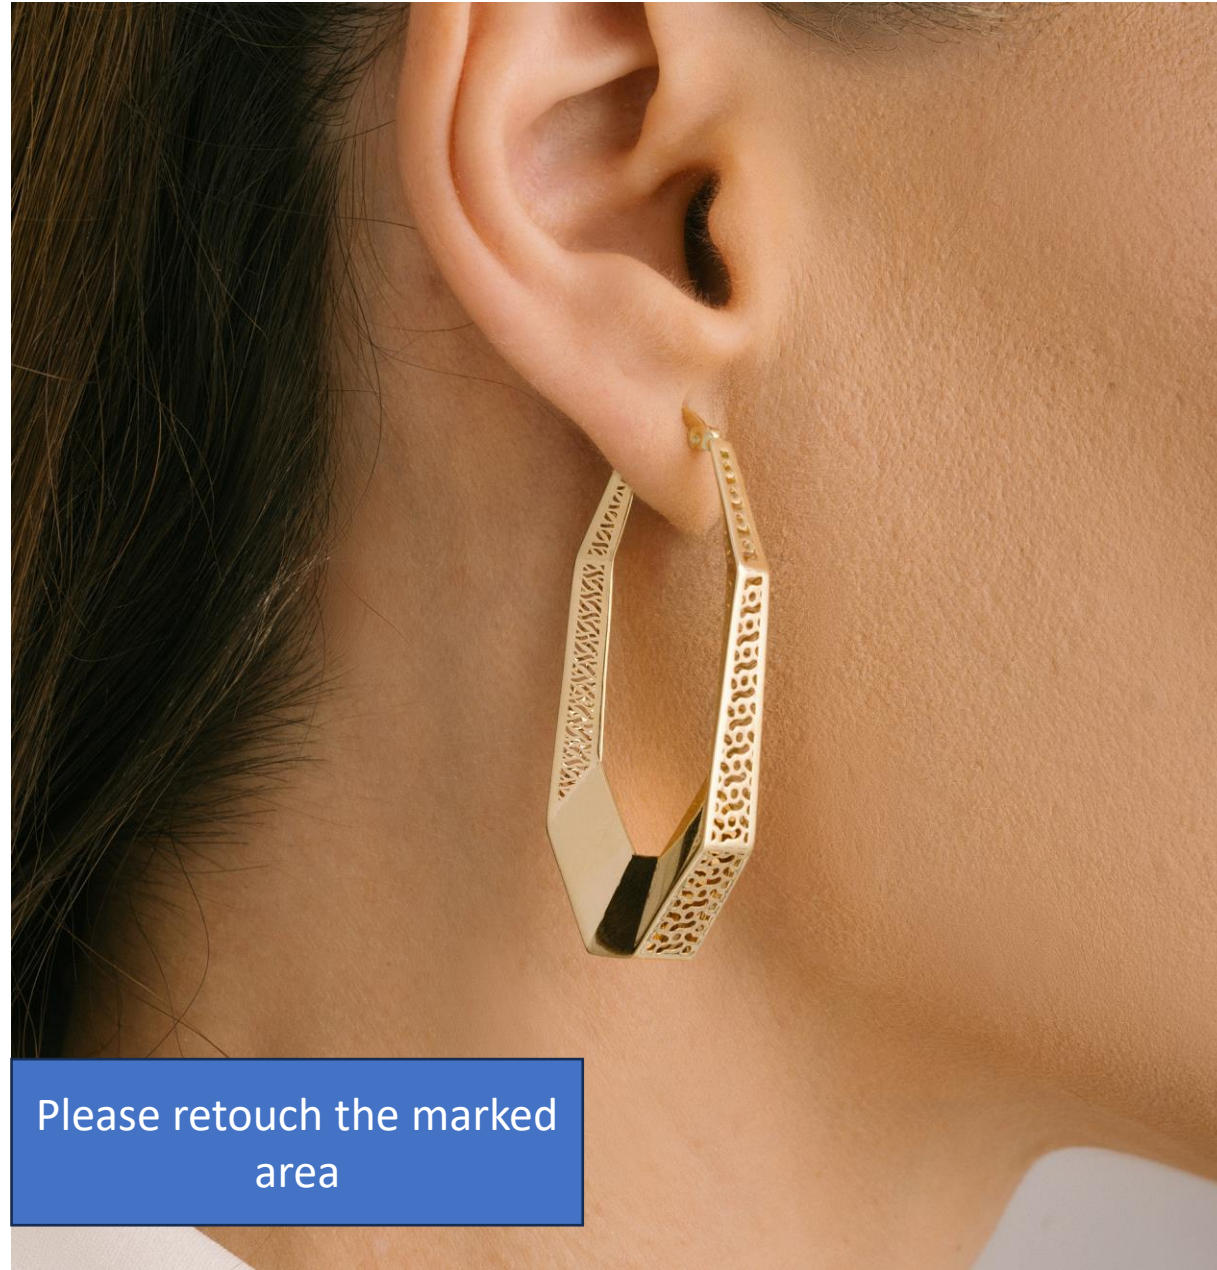

- We want to see almost a clear skin but it shouldn't seem so fake. There is a very delicate border between the clear skin and fake skin. Please be careful about it. Please also reduce the level of foundation model's skin. In some photos it is still very intensive and doesn't look nice. Please fix this.

1

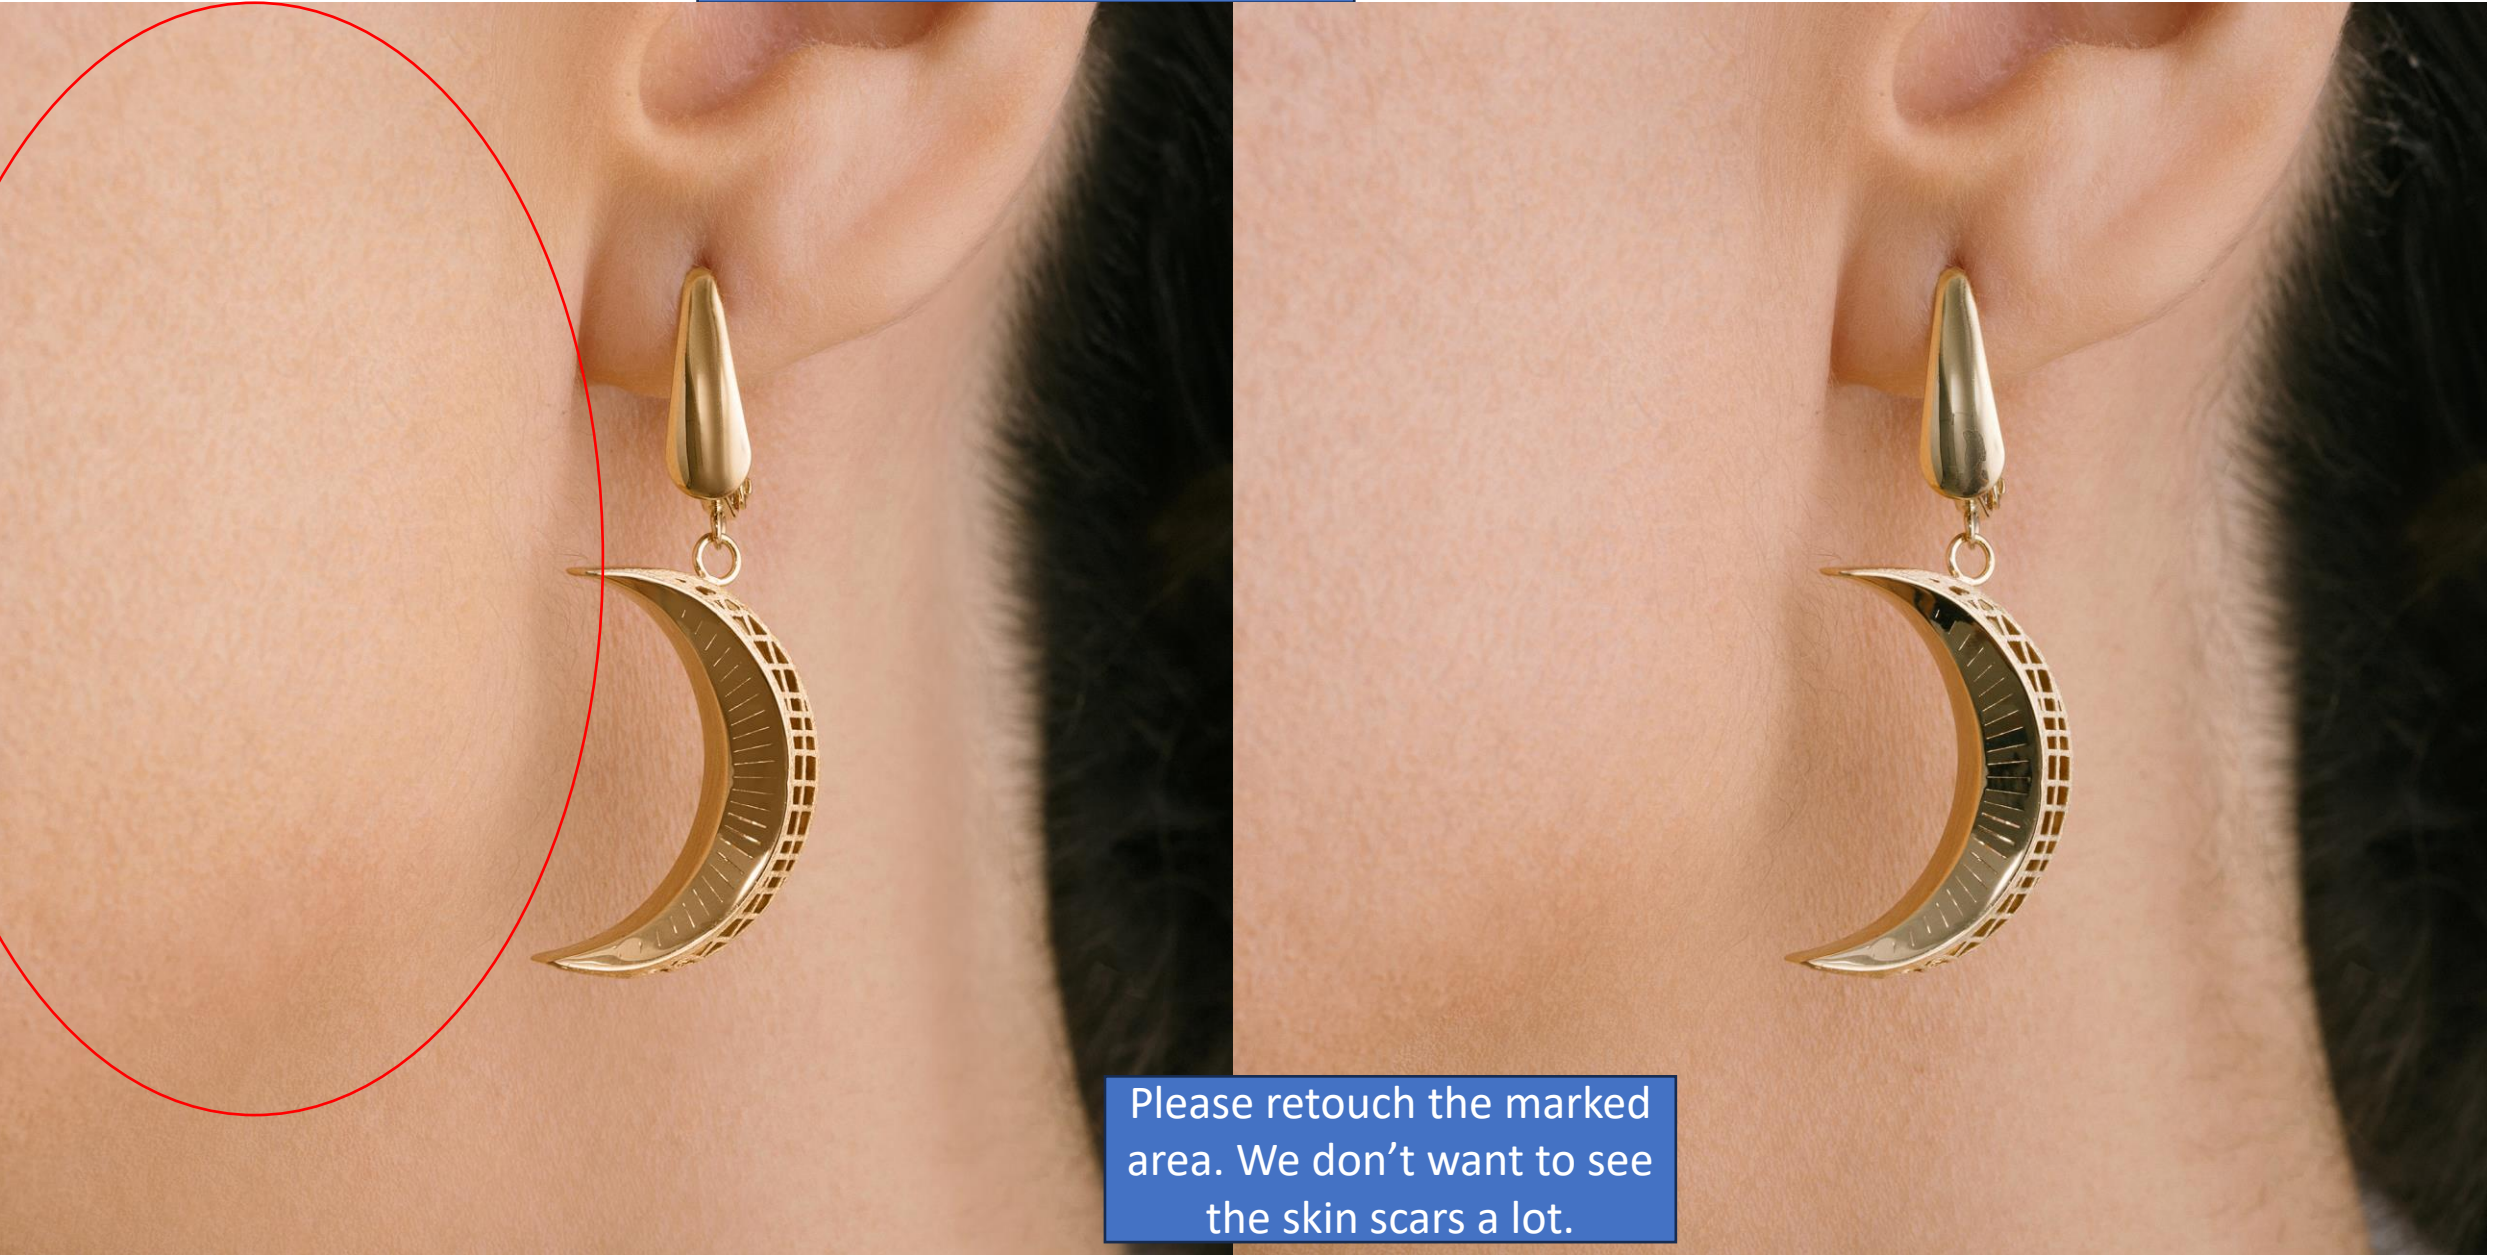

Could you please clear the hairs more?

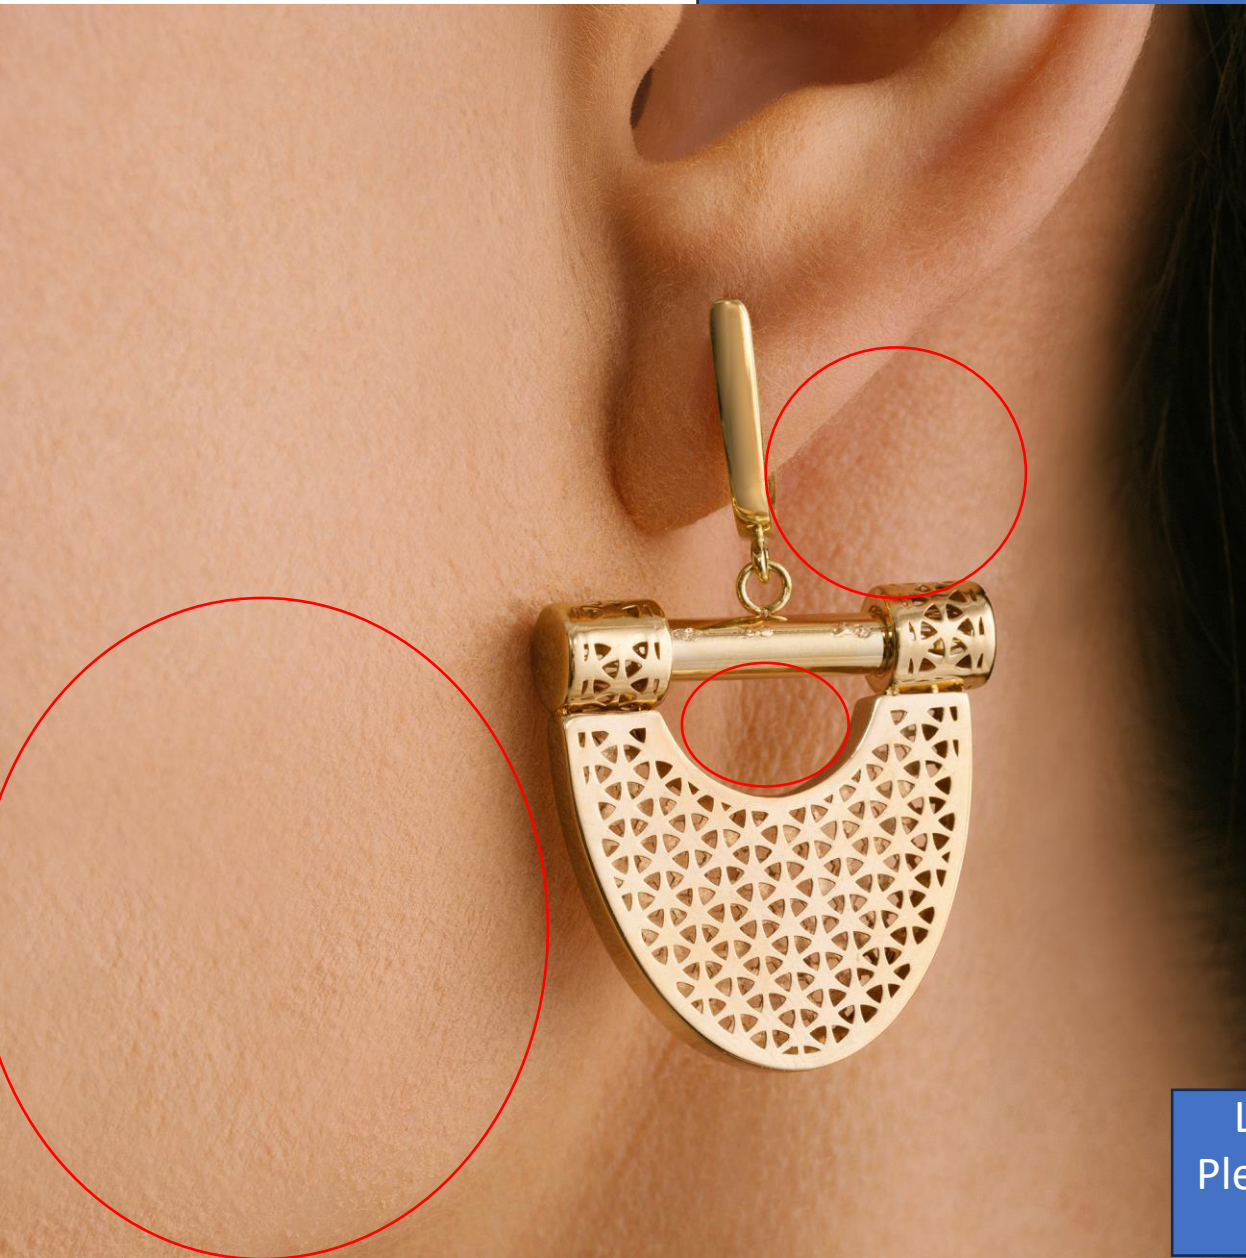

2

Please retouch the marked
area

Please retouch the marked area. We don't want to see the skin scars a lot.

Looks much better. But
Please retouch the marked
area a little bit more.

5

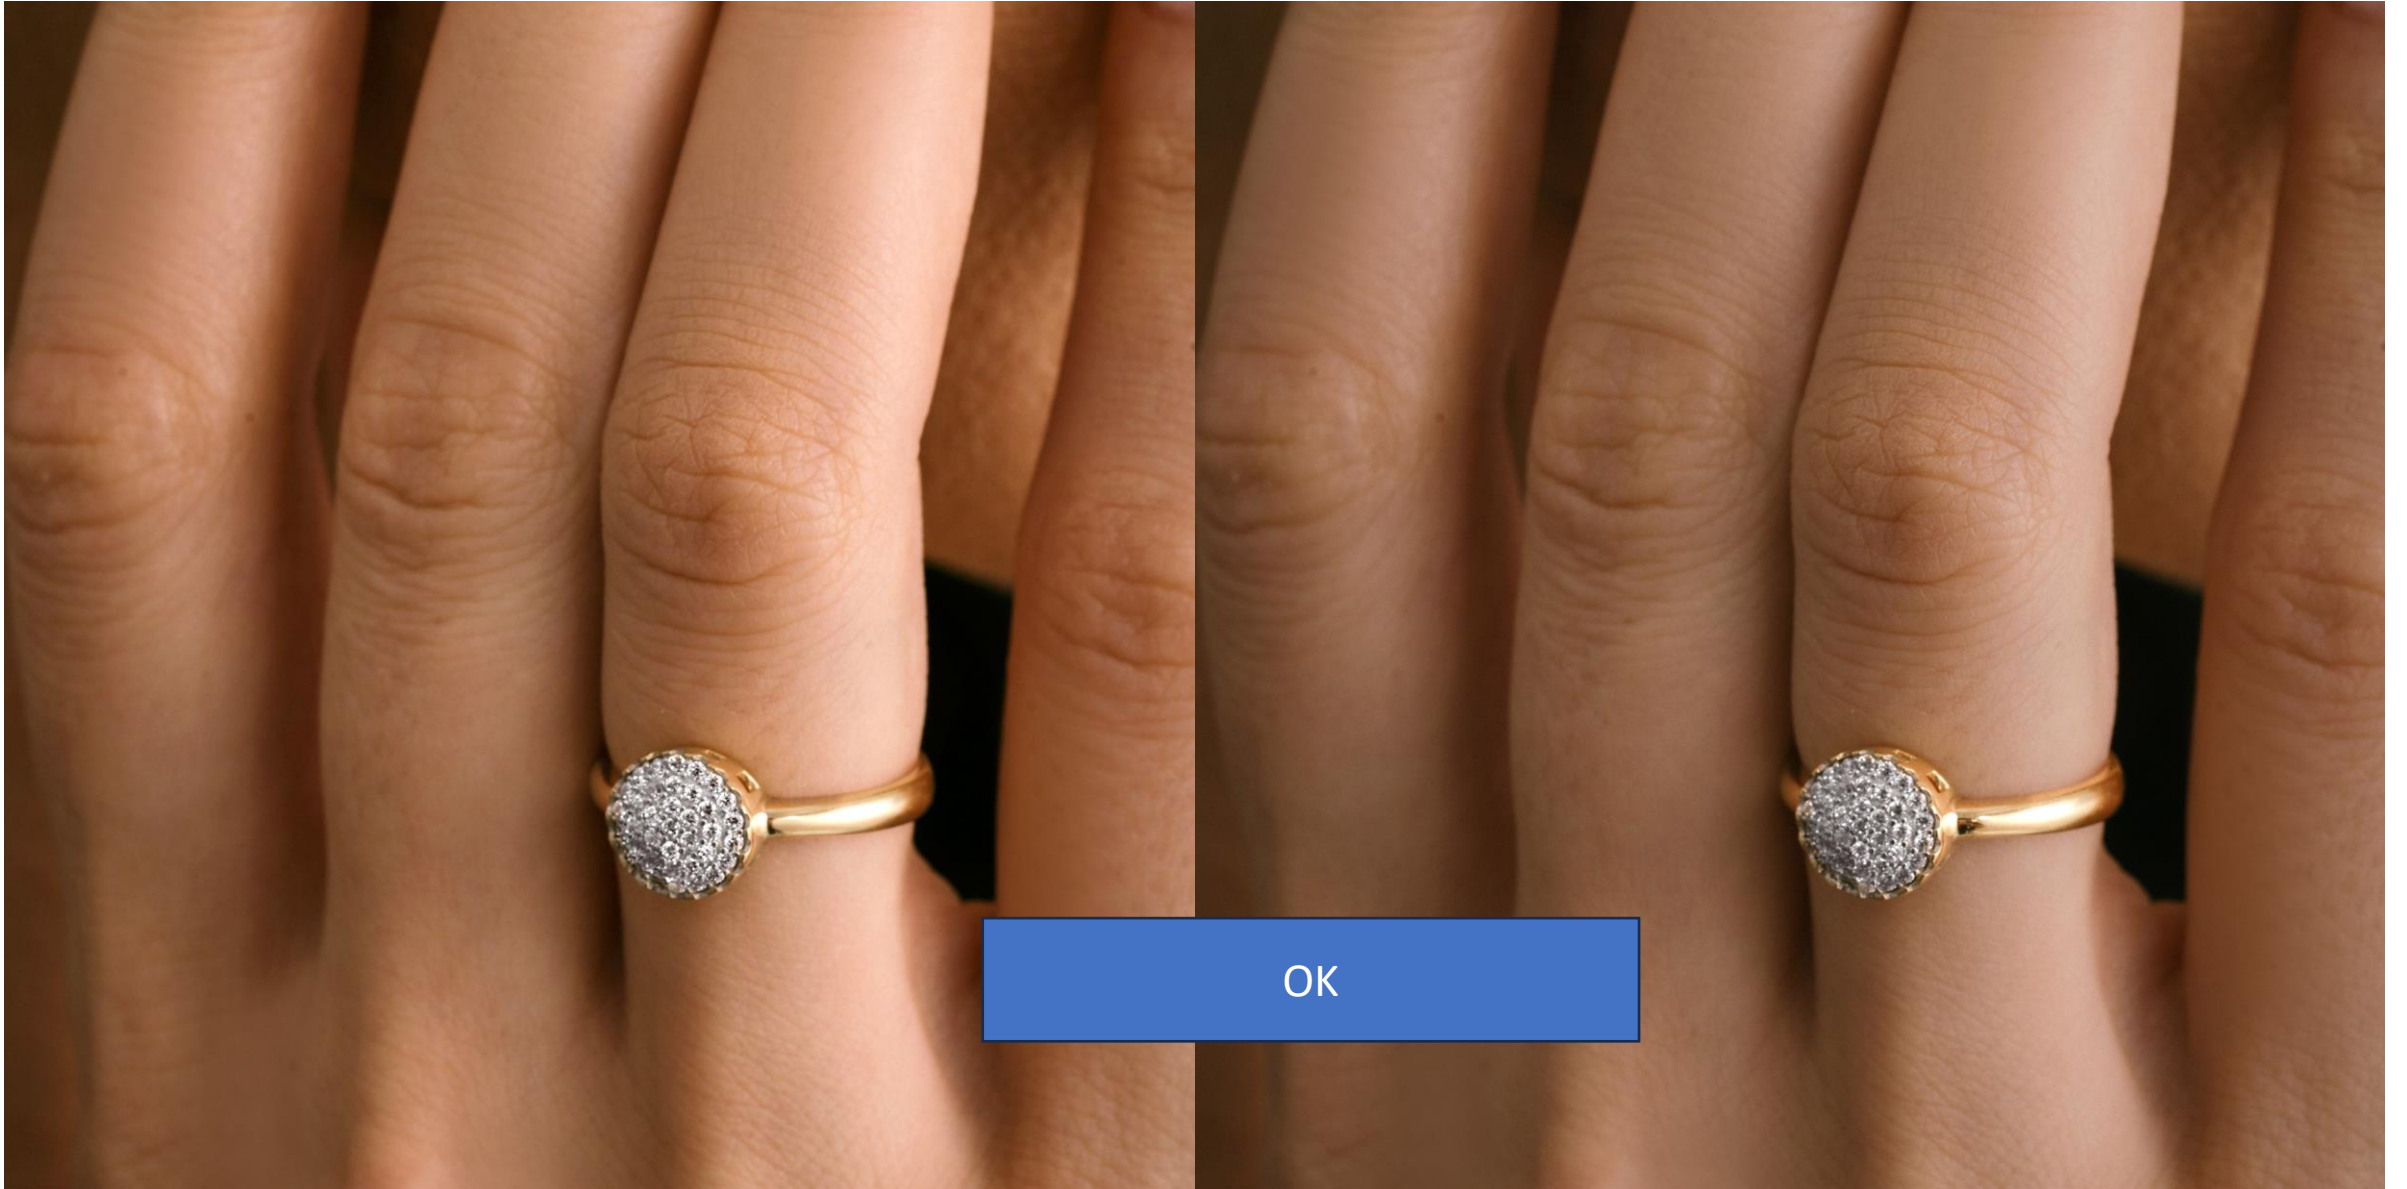

Diamonds should shine
brighter

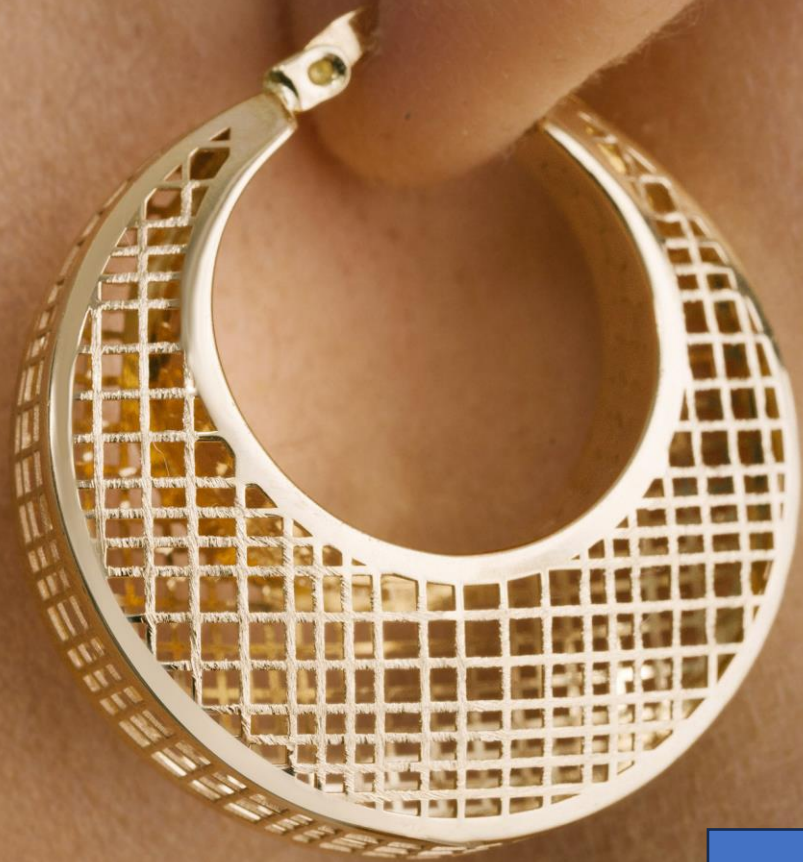

We can't see almost no difference on model's face. Please remove all the hair and remove also foundation on her face

7

OK

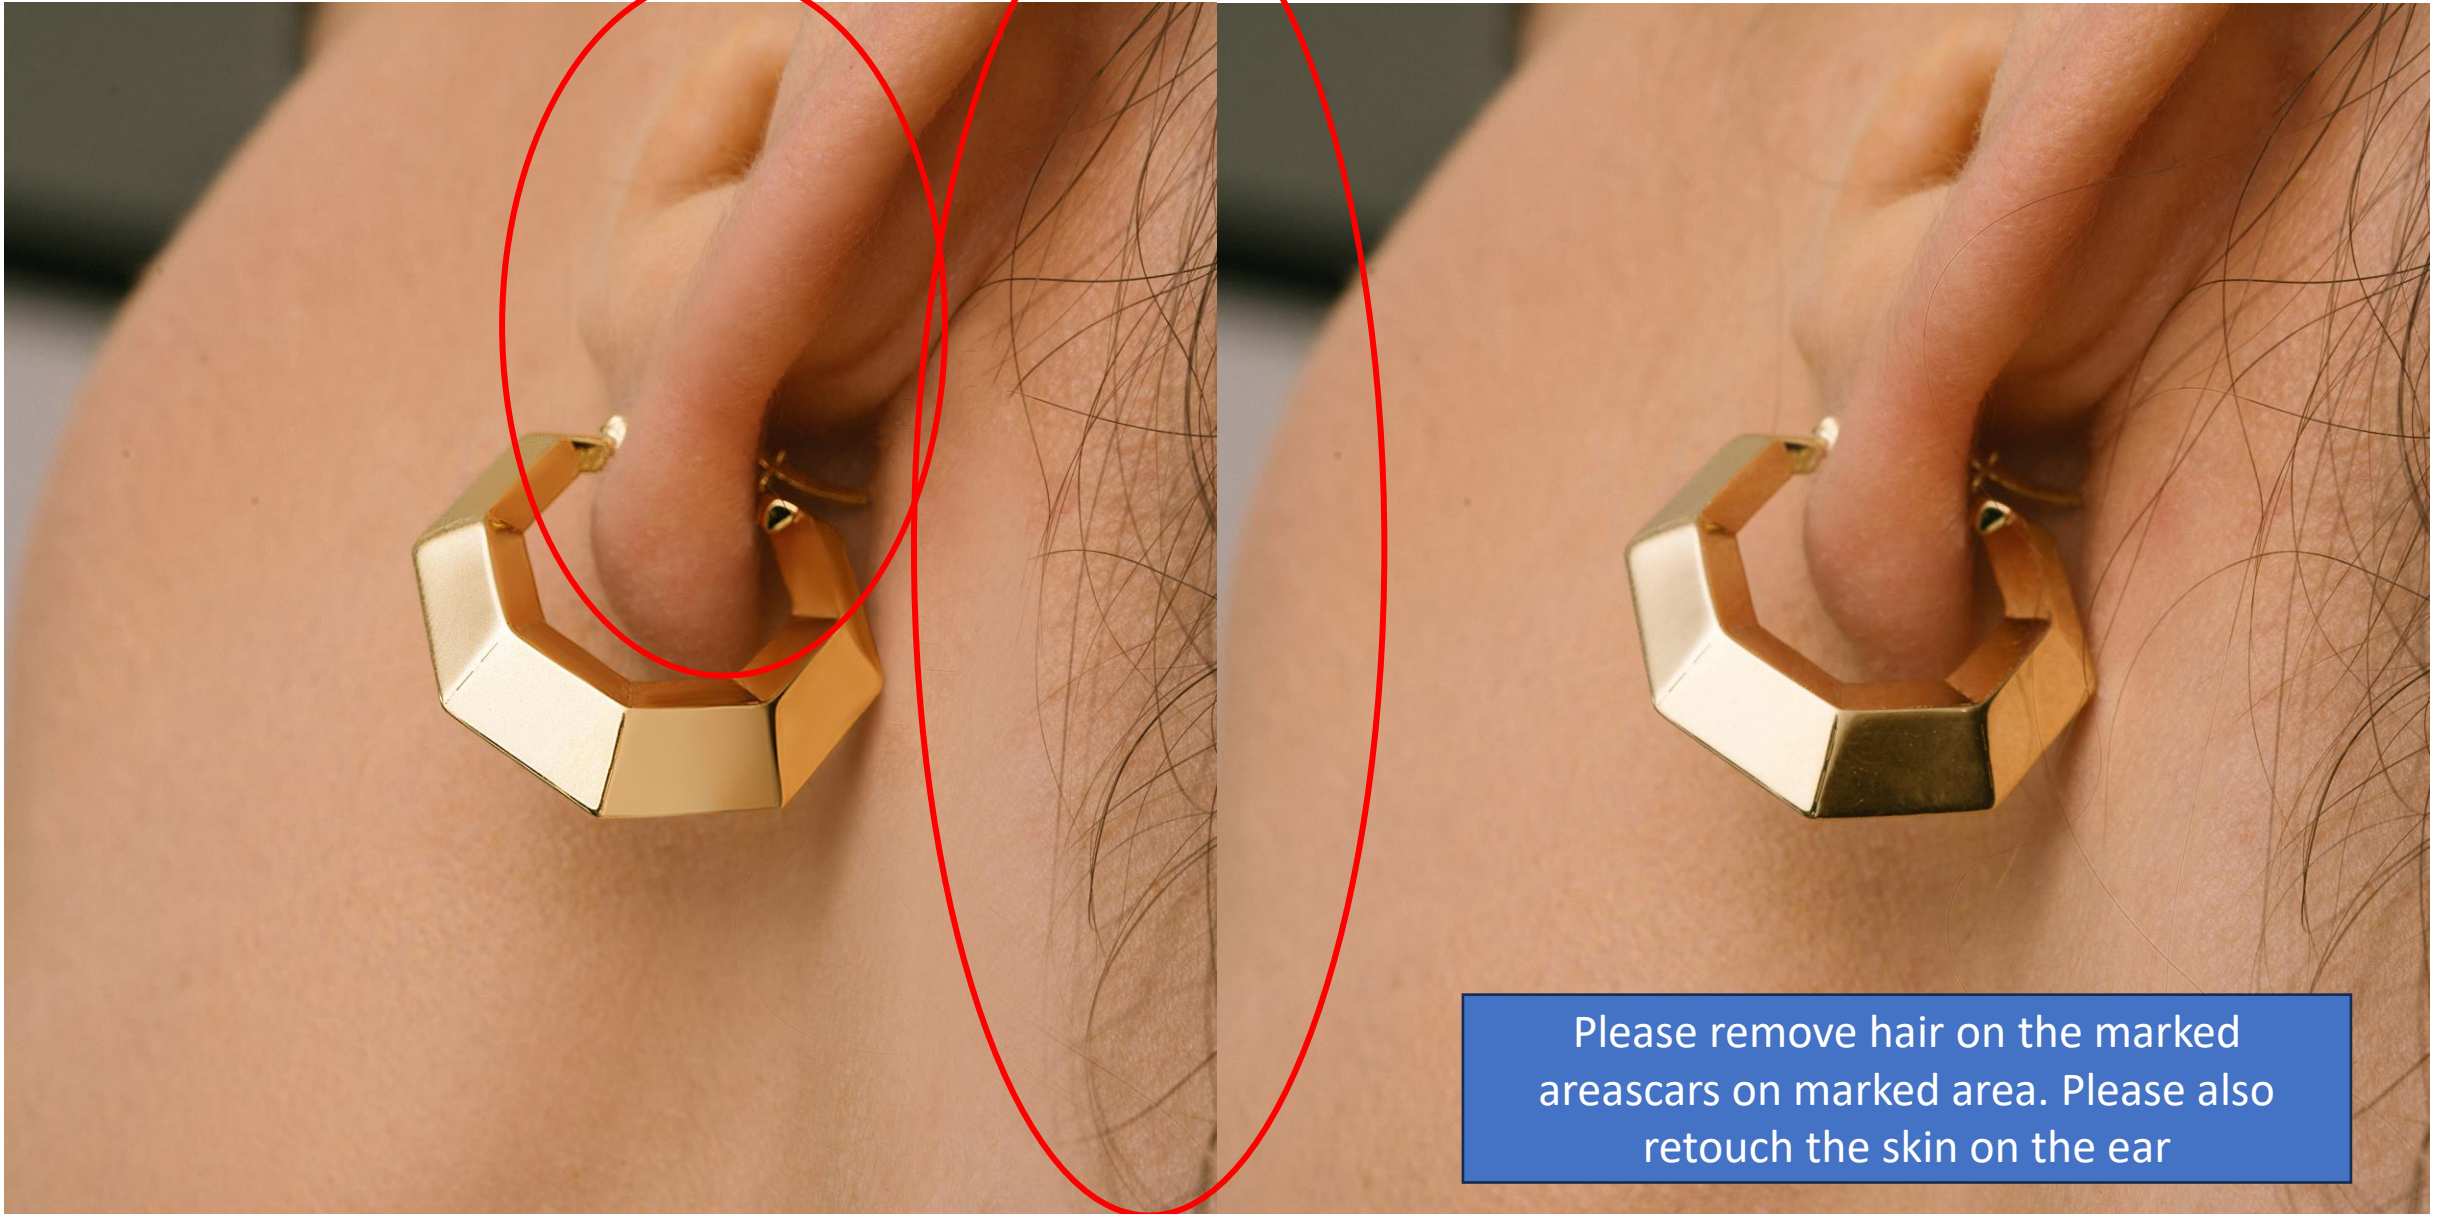

Looks much better. But Please clear the skin scars more. We want to see a clear skin
