

General Notes for photos 1-15

- Please use the last updated retouch version of the chain necklace in all pictures.
- In the photos that just show the pendant, please center the pendants. The distance of pendant to up and down edge does not seem equal in the photos.

Green stone should be brighter as on the left one. Rest of them ok. Please also use the last updated retouch version of the chain necklace in the picture.

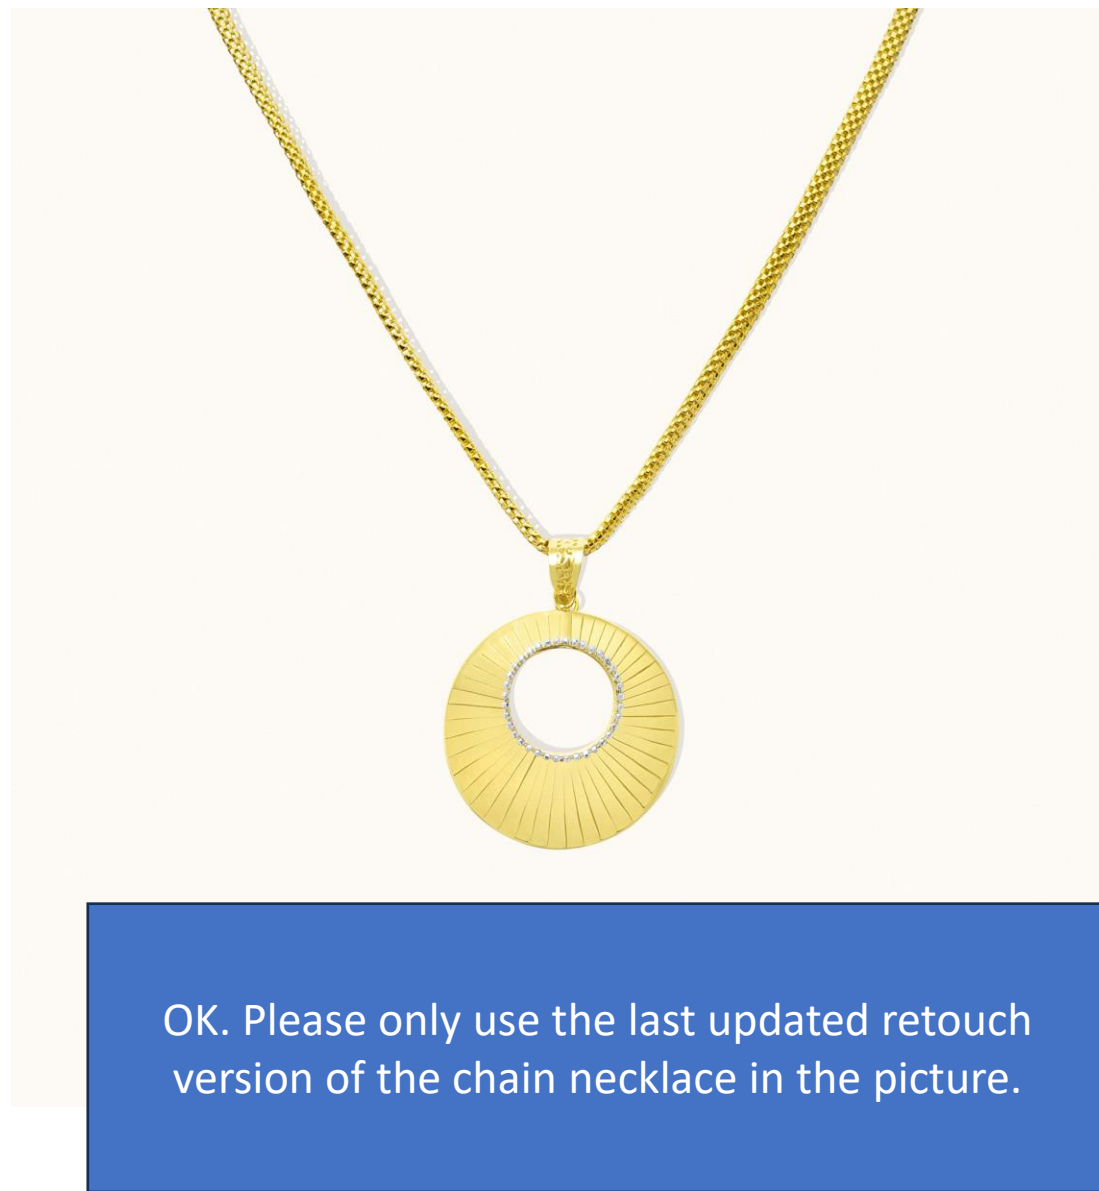

Colour is ok. Please only rotate the pendant clockwise just a little bit. pendant does not look properly. It is a little bit crooked. Please also use the last updated retouch version of the chain necklace in the picture.

These 2 pictures have different gold tones. Please make the left pic's color tone same as the right picture's gold tone. Please also use the last updated retouch version of the chain necklace in the picture. Rest of it looks wonderful. Thanks.

All 3 must have same gold tone. There is a minor difference between the color tones. Please fix it. Please also use the last updated retouch version of the chain necklace in the picture.

OK. Please only use the last updated retouch version of the chain necklace in the picture.

Chain still has some dark areas. Please fix it. The main problem is on the diamond. It doesn't seem clear and it should shine brighter. Diamond has 3 parts. One is on the left, second (bigger one) is on the middle and the right one.

The second pic looks much better. Especially chain but our comments above is also valid for this as well. Please retouch again the diamond. The position of the necklace doesn't look properly. Could you please position it again, we don't want to see lots of blank space. (Tried to show with red arrow)

Chain still has some dark areas. Please fix it. Please remove the reflection of the flash light on the pearl. We want to see a clear and white pearl. And please increase the distance between the left and right arm of the chain. It should be like this

The Comments above are also valid for this picture. Espec. For the pearl.

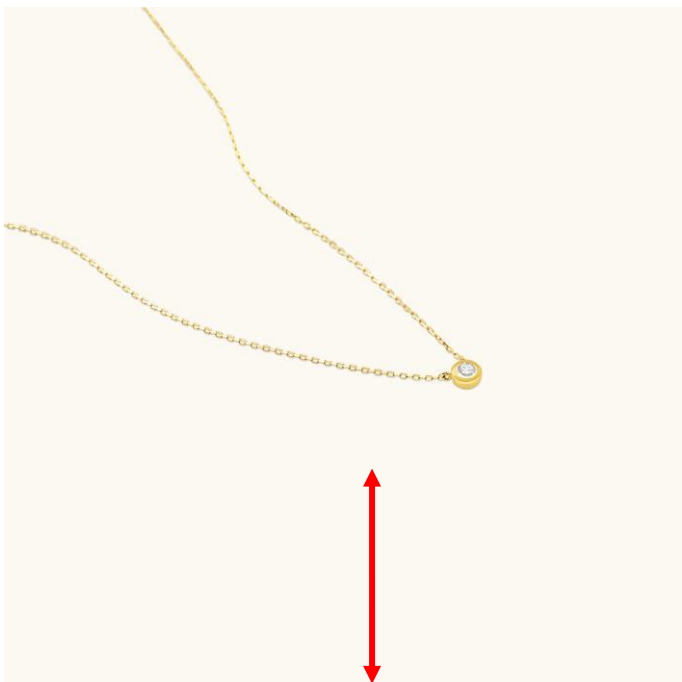

Please center the position.

The position of the necklace doesn't look properly. Could you please position it again, we don't want to see lots of blank space. (Tried to show with red arrow)

The tone of the color is not correct. It should be like this.

We see some scratches on the eye. Please fix it. Could you please narrow down the distance between the left and right arms of the chain?

Chain doesn't seem clear. It has reflections of flash light.. Please fix it. There are some scratches on the small balls. And please apply the same colour tone to this pic that we mentioned above.
